Residential Applications by Climatic Zone

This table represents typical applications based on ASHRAE Climatic Zones. Contact Aldes for additional applications or selection guidance.

Note: IAQ Exhaust Systems not containing HRV/ERVs may need one of the following make-up air solutions to introduce fresh air into the building

- FSVS Filtering/Supply Ventilation System
- DSVS Distributing/Supply Ventilation System
- BVS Blending/Filtering Ventilation System
- FAK Fresh Air Kit (connects to forced-air system)
- AIRLET™ (if no forced-air system)
