ENERGY RECOVERY VENTILATOR

INSPIRAIR® PRONTO

500-3200 CFM

PRODUCT BROCHURE

QUICK SHIPMENT PROGRAM • UNIT CONFIGURABLE AT THE INSTALLATION SITE

From the same platform as the new InspirAIR® Commercial custom product line, the PRONTO Series combines the most popular features into a **fast delivery, on-demand product**. The PRONTO Series offers high efficiencies and is **configurable directly at the installation site** for greater flexibility.

Designed for indoor or outdoor applications, the PRONTO Series energy recovery ventilator ensures robust operation and installation thanks to its features specially developed to meet the needs of the industry.

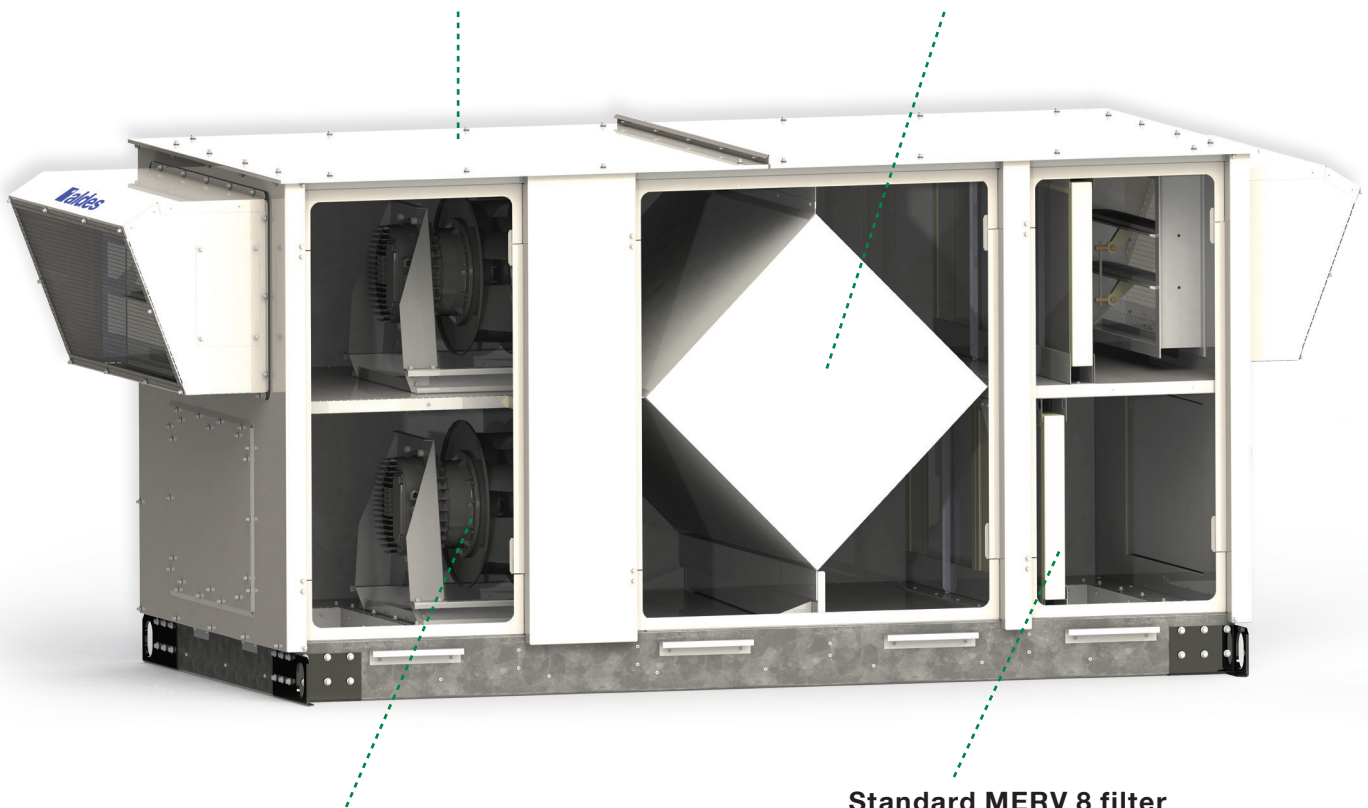

Simplified installation
thanks to pre-wiring and roof curb

Frost-control strategy for an optimum climate compatibility

Double wall construction for a durable, high-quality product

Up to 75% plate total efficiency

Exclusive technology developed by ALDES to suit the needs of all North American climate

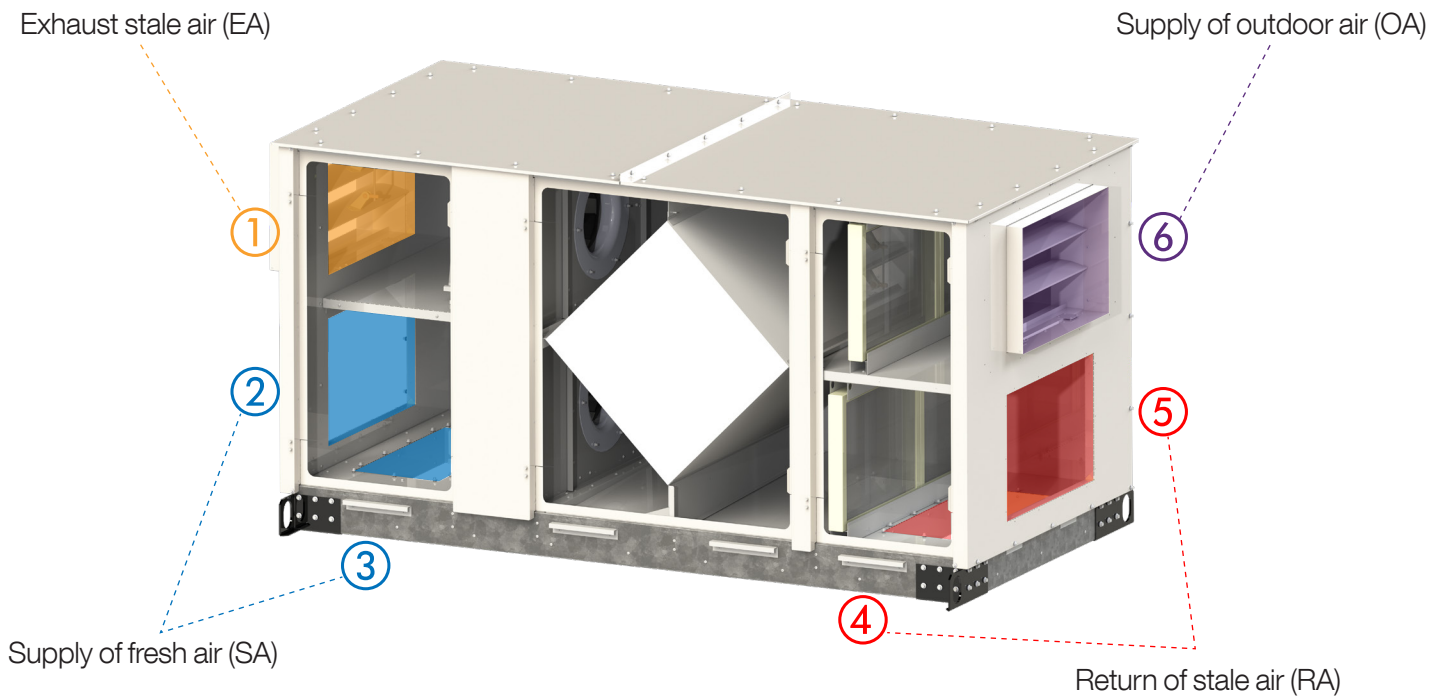

EC motor offers variable speed control and reduced operating costs by maximizing system efficiency

Standard MERV 8 filter offering high-quality filtration

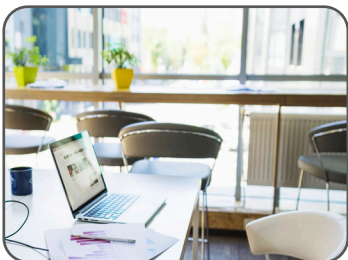

Optional MERV 13 filter available for superior capture of particles and pollutants

DUCT CONFIGURATIONS

Possible configurations : 1-2-5-6 or 1-3-4-6

TYPICAL APPLICATIONS

Commercial office buildings

Hotels

Schools

Industrial / Manufacturing

MAINTENANCE

ALDES energy recovery ventilators are specifically designed to allow easy access to filters, blower assemblies, and energy recovery core. Each unit carries a two-year warranty on core assemblies, and a limited two-year warranty on all other covered components.

TECHNICAL SPECIFICATIONS
